Destur, ya Sayyidi, Meded,
Audhubi-llahimina shaitani rajim,
Bismillahir-Rahmanir-Rahim,
La haula wa la quwatta.

Allah, Allah. Meded ya Sultanu-l Awliya,
Meded, ya Rijalallah.

Subhanallahi-l'Aliyu-l'Azim just time running and everything in it running from unknown to unknown. If it is our knowledge we are asking from where coming to where going, may say only we are coming from unknown and going to unknown. That is our mind production. Also Prophet saying, prophets coming, a.s. and heavenly knowledge reaching to ourselves and we have been offered to believe and offering for something, offering to believe for something that means also unknown. Because knowing know thing no need to say "Believe in this, that is a clock there, believe that it is a clock", no need.

Yes, we know that it is clock. No need to believe. Belief as Allah Almighty first command through Holy Quran after the Sura of Praising Allah Almighty, Fatiha, then, "Bismillahir Rahmanir Rahim, Alif Lam Mim, dhalika-l kitabu la ghaiba fi huda li muttaqin, alladhina yuqminuna bi-l ghaib." Holy Quran giving lights to those people whom they are believing in unseen existence, unseen universes, unseen worlds, unseen creatures. That is veiled. Saying, "You must believe what is behind this veil", that you must believe. If you are not believing, it is unknown for ourselves, but we have been informed that there is so many things that we are not seeing and our knowledge never reaching or never going to reach our minds.

We are so weak creatures, and we have been granted only like an atom from mind. Brain is something, but mind is something else. An ox brain is so much bigger than our brains, but his brain never doing as our brain doing. For what? We have been granted something that we are saying that is mind, Akl, that is a Jewher, a most valuable thing on earth given to creatures.

Whole creatures have been granted brain, but only mankind just granted something that we are saying that is mind. And that mind you can't say that it is something from material world. That is important point. It is not a parcel from this world, no. It is granted from Heavens to mankind only that giving value and honour for mankind for that reason. If you are asking to find it, you can't find. This is very important point. Its office. Brain, commanding center or what we are saying remote control? Controlling center for that Jewher. Where it is? You can't find.

But if it is not there you can't see, you can look, but not understanding, you can hear, not understanding, you can speak, not understanding. Controlling mankind that secret power granted from divinely Presence, with that mankind is honoured to be deputies. Subhanallahi-I 'Aliyu-I-Azim with that power that it is a divine grant, whole creature even angels were asking that to be granted to them.

When Allah Almighty was saying I am going to bring in existence a new creature, bringing, I am calling that one to come in existence, to be My deputies on earth, with which looking it was granted to man. Angels saying, "We are suitable more than that new creation to come in existence. They are perhaps going to be worst ones on earth to do worst and bad things and killing and destroying and burning as they are most violent ones that are created." Angels saying that new creation is going to be in such a way, angels looking and seeing. But not yet appearing the time that Allah Almighty appointed time to be in existence to come. And they are saying we are so smooth ones, we are only glorifying You, o our Lord, peaceful people. And those they are going to eat each other, killing, burning, destroying." "I know! I granted to them something."

What angels have, we have. What rocks, material world, we have, botanic world, we have, animal world, we are in it also, and also this, our body, belongs to earth, but our souls coming from Heavens. And through our souls, our soul not same souls of angels.

They are first on same level, souls. But when Allah Almighty asking to make them His deputies, giving them some secret grant that angels not knowing. That is under divinely protection. They may do everything but that jewel you may say, most valuable thing it is something, but no one knowing what it is. No one can know, that is protected. Never belonging to earth or Heavens. That is divinely grant. Therefore the honour of mankind no one can reach to its real value, can't be. "Wa laqad karamna Bani Adam, We are giving such a value and honour for mankind", and He, Allah Almighty is swearing, "Everyone may know about it something, but they can't reach what Rasulallah, the Seal of Prophets, is knowing". And Rasulallah sws, his knowledge also (coming to its limit), that whole creatures' knowledge by comparison to Seal of Prophets knowledge it is only as a needle just put in an ocean and taken away, what remaining (on it from water, a drop). Then Rasulallah sws is coming to his limit, because he is not Allah. He is on the highest level of servanthood, he is not Allah! He is most honoured servant, chosen as most praised divinely servant. No one can be able to be face to face to the Lord of Heavens, the Creator, to Allah, except him. He has a limit also.

And then the meaning that Allah granted value and honour to mankind, He knows. And Allah getting angry now, not now, every time, when He is getting angry- to be disrespected mankind. He never likes mankind to be oppressed or to make mankind down, not to respect. Allah respected mankind and He is getting very angry, when anyone even from mankind disrespecting others. He is punishing only those people.

Therefore we have been granted that jewher, that valuable jewel as a most valuable diamond. That even, it is unknown for this power also from where we are coming and unknown also to where we are going. It has a power in limits. Therefore that divinely power asking to reach, heavenly lights coming and just assembled.(like this watch - in it so many parts, then, who knowing, putting everything everywhere, making montage.) that is placed and how it is.

These prophets bringing lights and going to be a montage with that jewel that granted. Then appearing from where we are coming. Unknown worlds going to be known worlds, and that is Maqamu-I Kashf, that is the opening. First we are in veil, we can't see behind, what is after this veil, but when the lights of prophecy reaching from Heavens and coming a montage with our that diamond, we are knowing, and when we are going on it, that veil little by little opening and we are going to be looking really what we have been informed through prophets; what was unknown worlds, it is going to be an opening.

But Dunya making people to be blind, blind on their eyes, they can't see. Therefore we are saying, Muqmns are believing, and unbelievers are saying, "We don't know from where we are coming." They are denying, and denying also.saying, "We are going to be nothing. We are coming from nothing, and we are going to be nothing". And this secret wisdom that Allah Almighty only knowing real situation of mankind, and everything now happening, according to His divinely Will must go on. And the time that it is just appointed for mankind to be on this planet, it is going to reach its end. Therefore troubles and suffering going to reach on its top point. And now what we reached is a point that mankind is going to be out of control.

With their huge material powers they can't be able to stop or to reach and to do something to save themselves. And this is their worry, biggest worry for mankind now 2003, most biggest worry for them, "How we can stop it?" Because commonly people are unbelievers, and now whole world just get out of their controls. They can't reach to stop what happening now everywhere, impossible! They are saying, government, armies, "We can't do anything". Trying to stop it, but out of their control.

Now we are only looking a divinely involvement from Heavens that it is Awliyas power, and Awliyas power is from Rasulullah sws. And we are looking now the time of Mehdi a.s.

There was some signs for Mehdi a.s., when he is coming, that I am remembering to be that Ramadan, Holy Month, two eclipses- lunar and solar eclipse. Lunar just happened on 15th night, and tonight, tomorrow going to be full solar eclipse, as Prophet was saying, that "That Ramadan should be lunar and solar eclipse." Just happened, and this calendar saying that tonight up to tomorrow full solar eclipse. But can't be able to see our continents, perhaps South of earth they are looking, but going to be full. And it was mentioned that it should be and never happened solar eclipse at beginning of new month and tonight going to be new month, new moon, and in new moon can't be eclipse also.

Therefore we said last night that what is reaching to me now for controlling satanic works, shaitans and devils and their efforts, that going to fall down to be destroyed. They tried to destroy everything, they reached to a point that it is going to be out of their control, mankind. Now Awliyas involving and going to take control through East to West, from North to south. That is the sign that someone bringing and showing to me that tomorrow going to be solar eclipse.

May Allah keep us, because every time it is a biggest sign for some biggest event, should happen soonerly on earth. May Allah takes away and grant us the real Caliph for Muslims, to take away Shaitan and satanic kingdom to fall down, to be destroyed and disappeared, collapsed.

For the honour of the most honoured servant Sayyedina Muhammad sws. Try to keep to run to Allah for protection! Who not running to Allah - la malja wa la manja! Not anyone can shelter anyone now from what is going to happen from so terrible and horrible events coming now!

May Allah forgive us and protect us for the honour of the most honoured one in His divine Presence Sayyedina Muhammad sws,

Fatiha. Ah, ya Rabbi!
